Company Profile

Web Edge Solutions is a leading-edge digital agency based in Bangalore, India, founded by Shareeba Firdose. The company was established with a vision to help businesses of all sizes achieve their digital transformation goals through innovative, reliable, and result-driven solutions. At Web Edge Solutions, we empower clients to establish their online identity, enhance brand visibility, and drive business growth using advanced web technologies and modern design principles.

Our motto, 'Empowering your Digital Edge', reflects our commitment to deliver technology solutions that give our clients a competitive advantage. Whether it's designing stunning websites, optimizing digital presence, or providing hands-on IT education, Web Edge Solutions combines creativity, strategy, and technology to turn ideas into impactful realities.

Mission & Vision

Our mission is to bridge the gap between ideas and execution by delivering high-quality, innovative, and user-centric digital solutions. We envision a future where every business, regardless of scale, can harness the power of technology to create meaningful digital experiences that engage and inspire.

Services Offered

- Custom Website Design and Development – Crafting responsive, modern, and visually appealing websites.
- E-Commerce Development – Building secure and scalable online stores tailored to your brand.
- Portfolio Websites – Creating elegant, personalized digital portfolios for professionals and creators.
- SEO & Maintenance – Ensuring your website stays optimized, secure, and up-to-date for better visibility.
- Graphic Design – Professional business cards, brochures, and brand identity design.
- IT Training & Internship Programs – Providing students and professionals with real-world project exposure and skill development opportunities.

About the Founder

Shareeba Firdose is a visionary technology entrepreneur and computer science professional with a Master's degree (MCA) from St. Francis College, Bangalore City University. With deep expertise in software development, cloud computing, and emerging

technologies, she leads Web Edge Solutions with a focus on innovation, quality, and client success.

Under her leadership, Web Edge Solutions has delivered numerous successful projects across various industries, ranging from startups to established enterprises. She is recognized for her ability to translate client needs into cutting-edge digital solutions, blending aesthetics with functionality. Her strong understanding of both technology and business helps her drive digital transformation strategies that deliver measurable results.

Beyond her entrepreneurial role, Shareeba is frequently invited by reputed colleges and institutions to conduct hands-on workshops, serve as a project judge, and mentor aspiring students in the field of web development and emerging technologies. Her sessions are highly appreciated for their practical approach, motivational insights, and focus on real-world applications.
